WEST ALLIS FORECLOSED PROPERTY INITIATIVE

It is no surprise that the harsh economic times of the last few years have had a devastating effect on many aspects of our economy, including the housing market. Throughout West Allis and the rest of the country, there are many homes that have been foreclosed and many others that have been vacant or abandoned by owners who are financially unable to maintain them. These foreclosed, vacant, and abandoned homes are inviting to criminals and are often targeted for burglary (copper pipes, central air units, etc.), vandalism, trespassing, and other illegal activity.

The City of West Allis is aware of some of these foreclosed, vacant, and abandoned homes; however, there are a large number of these homes that have not been reported to the City of West Allis. It may take months (or years) before the City of West Allis is made aware that a home is vacant or abandoned.

We are asking for your help! We ask if you are aware of Foreclosed/Vacant/Abandoned homes in your neighborhood, you call the Foreclosed/Vacant/Abandoned Home Hotline at **(414) 302-8148**, and provide the specific address to us. We can utilize police and other City services to more closely monitor the property and work to reduce crime associated with vacant homes. We can also ensure that these homes are not left in disrepair, which will keep our neighborhoods looking good. Without your help, we are unable to track the true number of these properties that exist. Please take an active approach to maintaining your neighborhood and call **(414)302-8148** to report Foreclosed/Vacant/Abandoned Homes to us.

As always, if a crime or suspicious activity is in progress, call the WAPD non-emergency number at (414)302-8000 or 911 for a true emergency.

REMOVAL ORDINANCE (11.12)

With winter now upon us, please remember to be considerate and remove snow in a timely manner. A segment of the West Allis snow and ice removal Ordinance is below as well as a new 2015-16 Snow Emergency Procedure

Duty to Remove. The owner, occupant or person in charge of any premises shall remove and clear or cause to be removed and cleared from the public sidewalk abutting or fronting his premises all snow and ice to the width of at least three (3) feet on such sidewalk within twenty-four (24) hours of the ending of a snowfall. When ice has so formed on any such sidewalk that it cannot be removed, the owner, occupant or person in charge of the abutting premises shall prevent such ice from causing a hazard to the users of the sidewalk by sprinkling the walk with sand, abrasive material or other product designed to prevent ice accumulation. In constructing the provisions of this section, where the premises are occupied, the occupant or person in charge shall be deemed the proper person whose duty it shall be to comply with the provisions hereof.

Casting Snow on Public Ways. No person shall plow, shovel or otherwise deposit snow or ice, or cause snow or ice to be plowed, shoveled or otherwise deposited, from private property or driveway approach between the sidewalk and gutter line upon any street or alley pavement, sidewalk or other public way in the City. Failure to properly remove snow / ice could result in the following citations:

11.12(1)	Snow and Ice Removal	\$76.20
11.12(3)	Snow Dumping on Public Ways	\$76.20

2015-2016 Snow Emergency Procedure

- When approximately three inches of snow falls in a storm, the Department of Public Works usually plows all City streets and alleys.
- A "SNOW EMERGENCY" is declared through a radio or television announcement when a full scale plowing operation is initiated.
- Once declared, **all parking is prohibited on major emergency thoroughfares only for the duration of the emergency.**
- For residential parking, normal alternate side parking would be allowed during declared snow emergencies. Past practice of staying on the same side of the street for the duration of a declared snow emergency has been **eliminated**. Regular residential parking restrictions would apply for all overnight parking.
- Snow emergency regulations shall supersede all other overnight parking regulations for the duration of the snow emergency.

Finally, on certain streets other than emergency thoroughfares where one side of the entire block is permanently posted NO PARKING AT ANY TIME year-round, parking will be allowed on the opposite side during the declared snow emergency regardless of the calendar date on which the emergency is declared

Just a friendly reminder when parking: Please do not block carriage walks. In the winter when the snow builds up the only way to enter a house or business is by using their carriage walk. If you park right in front of the carriage walk and there are snow banks on both sides nobody will be able to get through. This could result in your mail being delayed, or even worse, an obstruction for emergency workers. Thank you.
